Q4 Revenue Report — Final Numbers

INBOX IMPORTANT

Hi team,

Please find attached the final Q4 revenue figures. Key highlights:

- ARR grew 34% YoY to \$12.4M
- Net revenue retention hit 128%, up from 115% in Q3
- Enterprise segment grew 52% with 14 new logos
- Self-serve conversion improved to 4.2% (from 3.1%)

The board deck is ready for review. I've included the waterfall charts showing the progression from Q3 actuals → Q4 forecast → Q4 actuals.

Notable callouts:

1. APAC expansion contributed \$1.2M in new ARR (ahead of \$900K target)
2. Churn decreased to 0.8% monthly (from 1.2% in Q3)
3. Average deal size increased 23% to \$48K

Please review and flag any questions before Thursday's board meeting. I'll be presenting the growth narrative alongside these numbers.

Thanks,
Sarah

Thanks for the detailed breakdown, Sarah. The Q4 numbers look strong overall.

I have a few questions about the marketing spend allocation — can we schedule a quick sync to discuss? I think we might want to reallocate some of the unused conference budget toward the new campaign.

Also, Marcus — great point about the infrastructure costs. Let's include that in our planning session.

Re: Q4 Revenue Report

Hi Bob,

Thanks for sending over the Q4 report. I've reviewed the numbers and have a few comments:

1. The marketing spend looks higher than projected — can you break down the campaign costs?
2. Infrastructure costs came in under budget, which is great. Let's discuss reallocating that surplus.
3. The new client acquisition numbers are impressive. Would love to see the breakdown by channel.

Let me know when you're free to discuss.

Best,
Alice

Q4 Revenue Report & Budget Planning

Hi team,

Please find attached the Q4 revenue report and updated budget projections for next year.

Key highlights:

- Total revenue: \$4.2M (+18% YoY)
- New client acquisition: 47 accounts
- Infrastructure costs: \$340K (under budget by 12%)
- Marketing ROI: 3.2x on digital campaigns

The full breakdown is in the attached spreadsheet. I'd like to schedule a planning session for next week to discuss the budget allocation for Q1.

A few items that need decisions:

- Marketing budget increase request (\$50K)
- Infrastructure scaling plan
- New hire allocation across teams

Please review and come prepared with your department's priorities.

Best regards,

Sarah

◆ Claude

Here's a summary of the Q4 report:

- Revenue: \$4.2M, up 18% YoY
- 47 new clients acquired
- Infrastructure \$340K (12% under)
- Marketing ROI: 3.2x

Three decisions needed:

- \$50K marketing increase
- Infrastructure scaling
- Team hiring allocation

Sarah wants a planning session next week.

◆ Claude

Hi Sarah,

Thanks for the comprehensive report. The Q4 numbers look great.

I'm available for a planning session next week — Tuesday or Wednesday afternoon works best for me.

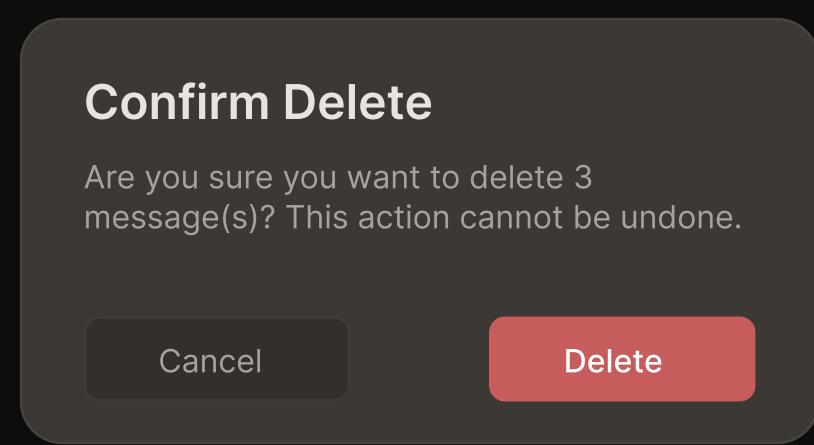

I'll prepare my department's Q1 priorities beforehand.

Best,

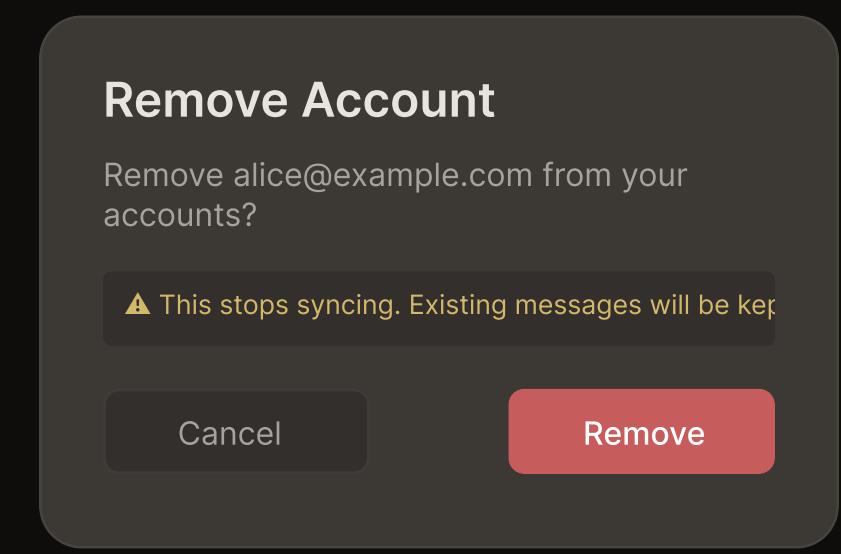

Alice
